Death anxiety is anxiety caused by thoughts of death. One source defines death anxiety as a “feeling of dread, apprehension or solicitude (anxiety) when one thinks of the process of dying, or ceasing to 'be'”. Also referred to as thanatophobia (fear of death), death anxiety is distinguished from necrophobia, which is a specific fear of dead or dying people and/or things (i.e., fear of others ...)

Death anxiety (psychology) - Wikipedia

The practice of osteopathy began in the United States in 1874. The term "osteopathy" was coined by physician and surgeon Andrew Taylor Still, MD, DO. Still named his new school of medicine "osteopathy," reasoning that "the bone, osteon, was the starting point from which [he] was to ascertain the cause of pathological conditions."

Reflux is an important factor in many different lung diseases and its manifestations are under recognised. The pathological basis of reflux has recently undergone major changes and clinicians' understanding has improved with diagnostic technology.
