Standard Approach of Modelling (SAM) For Creating Building

This viewpoint is by guest author Rexter Retana. Building Information Modelling (BIM) is an essential part of the construction procurement process. However, when BIM deliverables are indiscriminately injected into the scope of services of project players, or across the construction supply chain, a BIM scope creep will occur.

Structural engineering is that part of civil engineering in which structural engineers are educated to create the 'bones and muscles' that create the form and shape of man made structures.

Structural engineering - Wikipedia

The BIM Framework includes a large number of conceptual models developed as part of an ongoing research covering BIM, performance assessment and improvement... The intention of this site is to invite discussion around each of these models and how they can be adapted, generalised and extended.

BIM Framework

The BIME Initiative has just launched! As of today, BIM ThinkSpace, BIM Framework blog and BIM Framework YouTube Channel are part of the BIME Initiative. As of today, all publications, presentations, and workshops derived from the BIM Framework will follow the initiative's General Principles and use its Knowledge Structures.
