

brass instruments their history pdf

A brass instrument is a musical instrument that produces sound by sympathetic vibration of air in a tubular resonator in sympathy with the vibration of the player's lips. Brass instruments are also called labrosones, literally meaning "lip-vibrated instruments".. There are several factors involved in producing different pitches on a brass instrument. ...

Brass instrument - Wikipedia

The sousaphone (US: / ˈ s uː f oʊ n /) is a brass instrument in the same family as the more widely known tuba. Created around 1893 by J.W. Pepper at the direction of American bandleader John Philip Sousa (after whom the instrument was then named), it was designed to be easier to play than the concert tuba while standing or marching, as well as to carry the sound of the instrument above ...

Sousaphone - Wikipedia
