### **Networking Fundamentals - cisco.com**

An internetwork is a general term describing multiple networks connected together. The Internet is the largest and most well-known internetwork. Some networks are categorized by their function, as opposed to their size. A SAN (Storage Area Network) provides systems with high-speed, lossless access to high-capacity storage devices.

### **Cisco CCNA Study Guide - Booktype**

understanding of networking and how different network topologies work together to form a network. This is beneficial to every networking job and is the reason Cisco certification is in such high demand, even at companies with few Cisco devices. Cisco is the king of routing and switching, the Microsoft of the internet-working world.
