Nursing is a profession within the health care sector focused on the care of individuals, families, and communities so they may attain, maintain, or recover optimal health and quality of life. Nurses may be differentiated from other health care providers by their approach to patient care, training, and scope of practice. Nurses practice in many specialties with differing levels of prescription ...

Nursing - Wikipedia
A clinical nurse specialist (CNS) is an advanced practice nurse who can provide expert advice related to specific conditions or treatment pathways. According to the International Council of Nurses (ICN), an Advanced Practice Nurse is a registered nurse who has acquired the expert knowledge base, complex decision-making skills and clinical competencies for expanded practice, the characteristics ...
Clinical nurse specialist - Wikipedia

Why do nursing students need to learn how to engage in clinical reasoning? "Failure to rescue," defined as mortality of patients who experience a hospital acquired complication, is directly related to the quality of nursing care and nurses' CR skills (Needleman et al., 2001). According to the NSW Health Incident Management System (2008), the top three reasons for adverse patient outcomes ...
