Information technology (IT) is the use of computers to store, retrieve, transmit, and manipulate data, or information, often in the context of a business or other enterprise.

Information technology - Wikipedia

For an overview of my research, check out our vision lab projects page. I work in computer vision, the area of computer science concerned with automatically inferring semantic meaning from images -- teaching computers to "see."

Eta squared and partial eta squared as measures of effect size in educational research

Eta squared and partial eta squared as measures of effect

The Double Helix, James Watson's 1968 memoir about discovering the structure of DNA, describes the roller coaster of emotions he and Francis Crick experienced through the progress and setbacks of the work that eventually earned them the Nobel Prize.

The Power of Small Wins - Harvard Business Review

There Are No Technology Shortcuts to Good Education. Kentaro Toyama. There are no technology shortcuts to good education. For primary and secondary schools that are underperforming or limited in resources, efforts to improve education should focus almost exclusively on better teachers and stronger administrations.
