IEC 61400 is an International Standard published by the International Electrotechnical Commission regarding wind turbines

### **IEC 61400 - Wikipedia**

Maximum power point tracking (MPPT) or sometimes just power point tracking (PPT) is a technique used commonly with wind turbines and photovoltaic (PV) solar systems to maximize power extraction under all conditions.. Although solar power is mainly covered, the principle applies generally to sources with variable power: for example, optical power transmission and thermophotovoltaics.
