***Free Extemporaneous Compounding Guidelines [PDF]**

An extemporaneous preparation is defined in section 1(1) of O.Reg 201/96 made under the Ontario Drug Benefit Act as a "drug or combination of drugs prepared or compounded in a pharmacy according to a prescription".

Extemporaneous Preparations

extemporaneous preparations are usually conducted over small periods of time. Lack of stability data limits many medicines from being made available for use in paediatrics. The armamentarium of formulations available for extemporaneous compounding relies heavily on the availability of stability data and the ingredients required for compounding.
