A financial system (within the scope of finance) is a system that allows the exchange of funds between lenders, investors, and borrowers. Financial systems operate at national, global, and firm-specific levels. They consist of complex, closely related services, markets, and institutions intended to provide an efficient and regular linkage between investors and depositors.

1. Introduction. An unprecedented large number of financial institutions collapsed or were bailed out by governments during the global financial crisis of 2007â€“2008. 1 The failure of these institutions resulted in a freeze of global credit markets and required government interventions worldwide. While the macroeconomic factors (e.g., loose monetary policies) that are at the roots of the ...
