INTERNATIONAL CODE OF ETHICS FOR OCCUPATIONAL HEALTH

Occupational therapy (OT) is the use of assessment and intervention to develop, recover, or maintain the meaningful activities, or occupations, of individuals, groups, or communities. It is an allied health profession performed by occupational therapists and Occupational Therapy Assistants. OTs often work with people with mental health problems, disabilities, injuries, or impairments.

Effective systematic management of risks improves worker health and safety, as well as productivity. Eliminating health and safety risks. The model WHS Act and Regulations require those who have a duty to ensure health and safety, achieve it by eliminating health and safety risks, so far as is reasonably practicable.. We strongly encourage businesses to strive to go beyond minimum compliance.
