Chivalry, or the chivalric code, is an informal, varying code of conduct developed between 1170 and 1220, never decided on or summarized in a single document, associated with the medieval institution of knighthood; knights' and gentlewomen's behaviours were governed [when?] by chivalrous social codes. [better source needed] The ideals of chivalry were popularized in medieval literature ...

A literary genre is a category of literary composition. Genres may be determined by literary technique, tone, content, or even (as in the case of fiction) length. Genre should not be confused with age category, by which literature may be classified as either adult, young adult, or children's. They also must not be confused with format, such as graphic novel or picture book.
