### **Organizational Behavior and Management Thinking**

Organizational learning is the process of creating, retaining, and transferring knowledge within an organization. An organization improves over time as it gains experience. From this experience, it is able to create knowledge. This knowledge is broad, covering any topic that could better an organization.

### **Behavioral Systems Analysis What is Behavioral Systems**

Organizational identification is a theoretically profound and practically important construct. It fundamentally transforms the relationship between employees and their work organizations, because highly identified employees integrate their organizational memberships with their sense of who they are.
