

### **the unified process explained pdf**

The Rational Unified Process (RUP) is an iterative software development process framework created by the Rational Software Corporation, a division of IBM since 2003. RUP is not a single concrete prescriptive process, but rather an adaptable process framework, intended to be tailored by the development organizations and software project teams ...

My ongoing analysis of the esoteric and channelled literature of the New Age since the early 90s has revealed that there is virtually not a single competent book on Light Body Process (LBP), as I have experienced it since I had entered the most intensive phase in 1999. Therefore, everything I will ...
